

## WORK THE HOURS THAT SUIT - PROFITABLE SERVICE & INSTALL BIZ

After 40 years in the industry, my vendor is now ready to exit this extremely well established gas install / repair business. After 20 years of ownership, the business has an extensive customer database and regular clients and as a result, most work just comes from word or mouth.

The business is located in the Wellington region and operates throughout the region installing and servicing Brivis Central Heating systems.

The business currently shows a healthy cash surplus to the working owner and he tells us that he only works for just nine months of the year with the summers off from November through March and current hours are lifestyle friendly; 8am to 4pm Monday through Friday with weekends off.

You have the choice, shut down for the summer, or work through and build the business and income by expanding the territory and/or extending the type of service you offer which could include home/building maintenance. This operation could also be amalgamated with a similar service business.

Current operation could be relocated to work from anywhere in the Wellington area.

Asking price is just \$239,000 and for this you get a business which generated an income surplus for one working owner in 2021 of \$145,165.

Sales/Income for the first six months of this year to the end of September are running at \$196,000 which is ahead of the same period last year.

Plenty of upside and potential here.

If you are interested and would like more information about this business, visit [www.barkerbusiness.co.nz/3104](http://www.barkerbusiness.co.nz/3104), register your details and submit the online Confidentiality Agreement. Once Doug receives your expression of interest he will be in touch.
